The Anne Ross Library aims to provide students of the University of Medicine & Health Sciences with a peaceful, inviting, service-oriented environment that is conducive to learning. In keeping with the mission of the university, we are dedicated to supporting the curriculum, research, and information needs of our students and faculty through the basic and clinical science programs.

To accomplish this mission, the library provides access to an impressive collection of current journals, books, and multimedia, in hard copy and digital formats. The library's subscriptions to electronic databases provide

### WHO Embarks on the Creation of a Global Health Facilities Database

The World Health Organization is responding to a crucial global health care need. The need to simply know *"Where are your health facilities?"*

The WHO announced the creation of a new **Global Health Facilities Database (GHFD)** that will allow all populations to locate and access information about health care services and facilities on a global scale. This timely and essential repository will

*"standardize the master lists of local and regional health facilities into an open database. Doing so will strengthen country's technical capacity at all levels, improve data interoperability across information systems, support the provision of universal health coverage..."* etc.

A Global Health Facility Database as a Global G...

...facilitating communication between the Library and the Faculty, students, staff and community partners of the University of Medicine & Health Sciences (UMHS).

# Access Medicine: Personal Account Setup

The screenshot displays the Access Medicine website interface. At the top, there is a dark navigation bar with links for "McGraw Hill Medical", "Support", "Subscribe", "Sign In", and "University of Medicine & Health Sciences". Below this is the "ACCESS Medicine" logo and the "UMHS UNIVERSITY OF MEDICINE AND HEALTH SCIENCES" logo, with a red arrow pointing to the latter. A secondary navigation bar includes categories like "Books", "Quick Reference", "Infographics", "Drugs", "Multimedia", "Cases", "Study Tools", "Patient Ed", "Hospital Corner", and "For Instructors". A search bar is present with the text "AccessMedicine" and "Search AccessMedicine".

The main content area features a carousel of book covers with left and right navigation arrows. The books shown are:

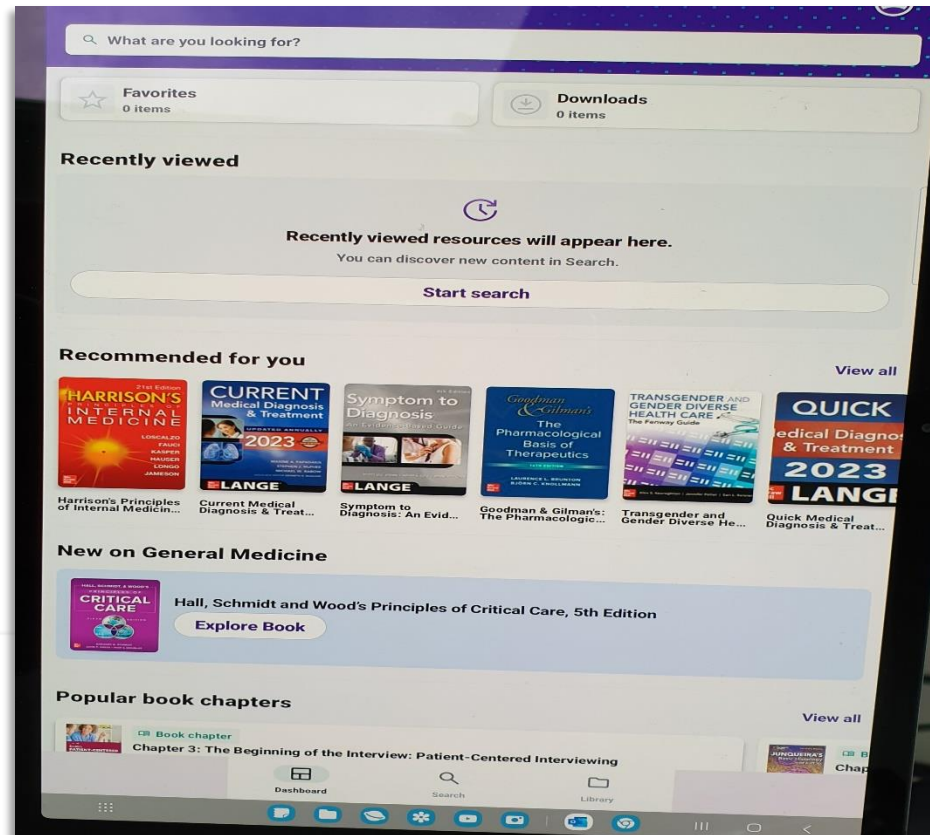

- HARRISON'S PRINCIPLES OF INTERNAL MEDICINE (21st Edition)
- CURRENT Medical Diagnosis & Treatment (2023)
- Symptom to Diagnosis (An Evidence-Based Guide)
- Goodman & Gilman's The Pharmacological Basis of Therapeutics (14th Edition)
- TRANSGENER AND GENDER DIVERSE HEALTH CARE: The Ferway Guide
- QUICK Medical Diagnosis & Treatment 2023

Below the carousel are links for "Browse Books by Topic" and "Get Alerts".

Below the carousel, there are three featured content blocks:

- Harrison's Channel:** Promotes the "HARRISON'S PRINCIPLES OF INTERNAL MEDICINE 21st Edition" with the text "AccessMedicine Channel, Harrison's... Harrison's 21st edition now".
- Infographic Guide to Medicine:** A colorful infographic featuring medical symbols like a stethoscope, microscope, and pills.
- Mpox Outbreak:** A graphic titled "Mpox (Orthopoxvirus genus)" with a world map and text: "Zoonotic virus. Transmitted from infected animals: Primates, rabbits, mice, guinea pigs. Bite, scratch, or exposure to bodily fluids. First reported in Democratic Republic of Congo - 1970, United States - 2023. We are excited to announce a new resource from the..."

# UpToDate

## Access link on Library Home page & LMS

The screenshot displays the UpToDate website interface. At the top left, the UpToDate logo is visible. The top right corner shows the University of Medicine and Health Sciences logo and a dropdown menu. A blue navigation bar contains links for Contents, Calculators, Drug Interactions, and UpToDate Pathways. On the right side of this bar are Register and Log In buttons. The main content area features a search bar labeled 'Search UpToDate' with a magnifying glass icon. Below the search bar is a section titled 'COVID-19 Information' with a sub-section for 'COVID-19 Homepage' and 'COVID-19 Questions and Answers'. The COVID-19 Homepage section includes a description: 'A categorized collection of all UpToDate COVID-19 content'. The COVID-19 Questions and Answers section includes a description: 'Answers to some of the most commonly asked questions by UpToDate users'.

# UpToDate Search

The screenshot displays the UpToDate website interface. At the top, there is a search bar with the text 'Search UpToDate' and a magnifying glass icon. The navigation bar includes 'Contents', 'Calculators', 'Drug Interactions', and 'UpToDate Pathways'. On the right side of the navigation bar, there are buttons for 'Register' and 'Log In'. Below the navigation bar, a 'Topic Outline' sidebar is visible on the left, listing various topics under 'GENERAL MANAGEMENT ISSUES' and 'COVID-19-SPECIFIC THERAPY'. The main content area is titled 'COVID-19: Management in hospitalized adults'. It includes author information (Arthur Y Kim, MD, FIDSA; Rajesh T Gandhi, MD, FIDSA), section editor (Martin S Hirsch, MD), and deputy editor (Allyson Bloom, MD). A 'Contributor Disclosures' link is provided. A note states: 'All topics are updated as new evidence becomes available and our peer review process is complete. Literature review current through: Dec 2021. | This topic last updated: Jan 24, 2022.' The 'INTRODUCTION' section discusses the identification of a novel coronavirus in Wuhan, China, in late 2019, and its rapid spread. It mentions that the disease is designated COVID-19, which stands for coronavirus disease 2019 [1]. The virus that causes COVID-19 is designated severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The text continues: 'This topic will discuss the management of COVID-19 in hospitalized adults. Our approach to hospital management evolves rapidly as clinical data emerge. Clinicians should consult their own local protocols for management, which may differ from our approach. Interim guidance has been issued by the World Health Organization and, in the United States, by the Centers for Disease Control and Prevention [2,3] and the National Institutes of Health COVID-19 Treatment Guidelines Panel [4]. Links to these and other related society guidelines are found elsewhere. (See 'Society guideline links' below.)' The management of patients with COVID-19 in the home and outpatient setting is discussed in detail elsewhere. (See 'COVID-19: Outpatient evaluation and management of acute illness in adults'.) (Related Pathway(s): COVID-19: Initial telephone triage of adult outpatients and COVID-19: Anticoagulation in adults with COVID-19.) Respiratory and critical care of patients with COVID-19 are also discussed separately. (See 'COVID-19: Respiratory care of the nonintubated hypoxemic adult (supplemental oxygen, noninvasive ventilation, and intubation)' and 'COVID-19: Management of the intubated adult'.) The epidemiology, clinical features, diagnosis, and prevention of COVID-19 are discussed in detail elsewhere. (See 'COVID-19: Epidemiology, virology, and prevention' and 'COVID-19: Clinical features' and 'COVID-19: Diagnosis' and 'COVID-19: Infection prevention for persons with SARS-CoV-2 infection' and 'COVID-19: Vaccines'.) The 'EVALUATION' section is partially visible at the bottom.

**Abstract**

**Objective:** This study aimed to explore the early functional results of total hip arthroplasty (THA) using the supercapsular percutaneously assisted total hip (SuperPATH) microposterior approach.

**Methods:** In this retrospective study, 58 patients treated with THA from October 2015 to April 2016 in our hospital were enrolled. A total of 28 patients (11 men and 17 women; mean age: 74.95±7.06 years) were operated on using the SuperPATH approach (group 1), and the remaining 30 patients (12 men and 18 women; mean age: 75.63±7.89 years) were operated on using the conventional posterior approach (group 2). To summarize the early functional results of the SuperPATH approach, we retrospectively analyzed the following demographics, perioperative factors, and measures of joint function: age, sex, preoperative diagnosis, preoperative visual analog scale (VAS) for pain, body mass

# Google Scholar Search

The screenshot shows a Google Scholar search for "deep vein thrombosis prevention". The search results are displayed on page 2 of approximately 227,000 results. The search bar at the top contains the query "deep vein thrombosis prevention" and a magnifying glass icon. The Google Scholar logo is visible in the top left corner. In the top right corner, there are links for "My profile" and "My library".

On the left side, there are filters for "Articles" and "Any time" (with options for "Since 2017", "Since 2016", "Since 2013", and "Custom range..."). Below these are sorting options: "Sort by relevance" and "Sort by date". There are also checkboxes for "include patents" and "include citations", and a "Create alert" button.

The search results list several articles. The first article is titled "Deep vein thrombosis and its prevention in critically ill adults" by Attia, JG, Ray, DJ, Cook, J, Douketis, et al. (2001). The second article is "A comparison of subcutaneous low-molecular-weight heparin with warfarin sodium for prophylaxis against deep-vein thrombosis after hip or knee ..." by Hull, G, Raskob, G, Pineo, et al. (1993). The third article is "Prevention of deep vein thrombosis after major knee surgery—a randomized, double-blind trial comparing a low molecular weight heparin fragment (enoxaparin) to ..." by Leclerc, WH, Geerts, L, Desjardins, et al. (1992). The fourth article is "Prevention of deep vein thrombosis in neurosurgical patients: a controlled, randomized trial of external pneumatic compression boots" by Skillman, REC, Collins, NP, Coe, BS, Goldstein, et al. (1978). The fifth article is "Prevention of deep vein thrombosis by intermittent pneumatic compression of calf" by Hills, JJ, Pflug, K, Jeyasingh, L, Boardman, et al. (1972). The sixth article is "Detection of deep-vein thrombosis by real-time B-mode ultrasonography" (2001).

Each article entry includes a brief abstract, the number of citations, and links for "Related articles" and "All versions". On the right side of the results, there are links for "Full-Text @ USM" and "Full-Text @ NIH.gov". A red circle highlights the link "[HTML] jamanetwork.com" for the first article.

# Acland's Atlas of Anatomy

Access link on [Library Home page](#) & [LMS](#)

The screenshot displays the website for Acland's Video Atlas of Human Anatomy. At the top, there is a search bar for Lippincott Discovery and a language selector set to English. The main header includes the title 'ACLAND'S VIDEO ATLAS OF HUMAN ANATOMY' and the publisher 'Wolters Kluwer'. A navigation menu contains 'VIDEOS', 'EXAMS', 'GLOSSARY', 'A-Z INDEX', and 'ABOUT'. A search bar is also present in the navigation area. The main content area is titled 'The Shoulder' and features a sidebar with five volume categories: 'VOLUME 1 The Upper Extremity', 'VOLUME 2 The Lower Extremity', 'VOLUME 3 The Trunk', 'VOLUME 4 The Head and Neck', and 'VOLUME 5 The Internal Organs'. The main content area is a grid of 15 video thumbnails, each with a title, a small image, and a duration or review status. The thumbnails are arranged in three columns and five rows. The first column contains thumbnails for 1.1.1, 1.1.2, 1.1.3, 1.1.4, and 1.1.6. The second column contains thumbnails for 1.1.9, 1.1.10, 1.1.11, 1.1.12, and 1.1.13. The third column contains thumbnails for 1.1.5, 1.1.7, and 1.1.15. Each thumbnail includes a small image and a 'REVIEW' button.

Thumbnail	Title	Duration / Review
1.1.1	Introduction to the shoulder region	0:30
1.1.2	The clavicle and scapula	4:11
1.1.3	Movements of the clavicle and scapula	0:59
1.1.4	The shoulder joint and its movements	1:43
1.1.5	Review of bones, joints, and ligaments of the shoulder	1:17
1.1.6	Introduction to shoulder muscles	0:23
1.1.7	Muscles passing from the scapula to the humerus	3:48
1.1.9	Lattissimus dorsi, pectoralis major and deltoid muscles	2:48
1.1.10	Review of shoulder muscles	1:15
1.1.11	Landmark structures for nerves and blood vessels	2:29
1.1.12	Veins of the shoulder region	3:09
1.1.13	Arteries of the shoulder region	2:35
1.1.14	Nerves of the shoulder region: the brachial plexus	5:33
1.1.15	Review of blood vessels and nerves of the shoulder region	2:26

# Bates Visual Guide to Physical Examination

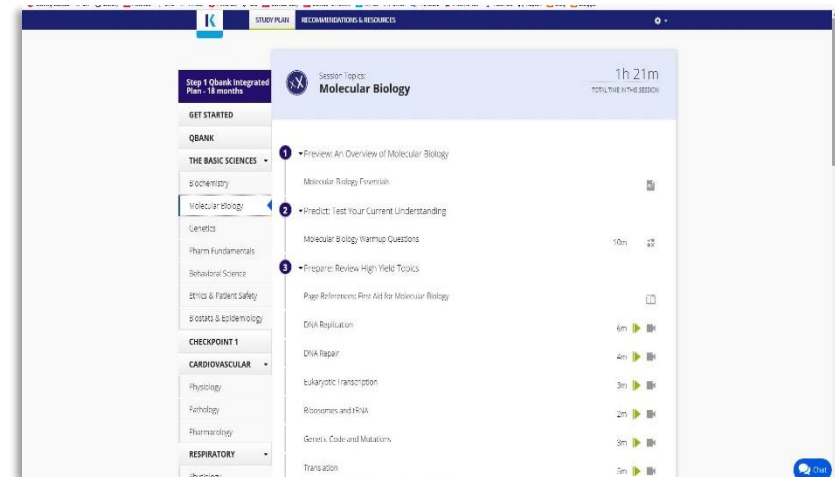

Access link on [Library Home page](#) & [LMS](#)

The screenshot shows the website interface for Bates' Visual Guide to Physical Examination. At the top, there is a navigation bar with the Lippincott Discovery logo and a search bar. Below this is a dark blue header with the title 'BATES' VISUAL GUIDE TO Physical Examination\*' and a search box. The main content area features a large image of a doctor examining a patient's chest. To the right of this image is a 'Create Free Personal Account' section with a registration link. Below that is an 'OSCE Clinical Skills Videos' section with a list of videos. The list includes: 1. Head-to-Toe Assessment: Adult, 2. Head-to-Toe Assessment: Infant, 3. Head-to-Toe Assessment: Child, 4. Head-to-Toe Assessment: Older Adult, 5. General Survey and Vital Signs, 6. Skin, 7. Head, Eyes, and Ears, 8. Nose, Mouth, and Neck, 9. Thorax and Lungs, and 10. Cardiovascular. To the right of the list are three OSCE case studies: OSCE 1: Chest Pain (4:55), OSCE 2: Abdominal Pain (2:42), and OSCE 3: Sore Throat (5:08). Each case study includes a small image and a brief description of the patient's condition.

# Kaplan Review & Question Bank

**\*\*\*You need to OPT-IN to gain access to this resource by emailing your request to Kaplan**

- USMLE style Q-Bank
- Test Prep & Practice
- Personal dashboard & study plan
- Skill report
- Basic Science Lectures
- Login: **emailed from Kaplan**  
**Watch in your SPAM**

# Summary: Accounts/ Logins/Passwords

1. **Library Account:** allows you to sign out library materials
2. **UMHS LMS: USER:** first part of UMHS email address  
**PSW:** Changeme24 - prompts psw change  
*(The Registrar sets this up after your registration has been completed.)*
3. **EBSCO:** Generic login on LMS, then set up own personal **MyEBSCO** account save searches, download ebooks, etc.
4. **Access Medicine:** Generic login on LMS, then set up own personal **Access** account - interactive cases, Qbank, robust mobile App *(download from your App Store)*
5. **JAMAevidence:** same login as for Access Medicine
6. **Kaplan:** *You need to email Kaplan* and **opt-in** at beginning of every new semester *(email: medservice@Kaplan.com)*
7. **PubMed:** via UMHS LinkOut, set up own login for more features & link to UMHS full text journals in EBSCO  
*(3<sup>rd</sup> party login such as Google)*

# Summary: Accounts/ Logins/Passwords

8. **Bates:** create own login, details on LMS.
9. **Aclands Anatomy:** create own login, details on LMS.
10. **Twitter:** set up own Twitter account & follow us.
11. **Pinterest:** set up own Pinterest account & follow us.
12. **ExamSoft:** computer-based exams  
*(Watch your email you your login during Week 2, check SPAM)*
13. **CAMS Student Portal:** official CAMS student number & PSW ~ access final course grades, transcripts, registration information, etc. *(The IT Dept. provides your login)*
14. **WebMail:** UMHS official email  
*(The IT Dept. provides your initial login)*

# Where would you find?

1. You have a patient with a recent diagnosis of Alzheimer's Disease. What is the prognosis? [[UpToDate](#)] [[AMBOSS](#)][[Access Medicine](#)]
